ACCREDITATION
The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA designates this live activity for a maximum of 7.5 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

UCLA CONFLICT OF INTEREST DISCLOSURE
The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is "truly independent" and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program's participants. In addition, the Accreditation Council for Continuing Medical Education policy now mandates that the provider adequately manage all identified potential conflicts of interest prior to the program. We, at UCLA, fully endorse the letter and spirit of this concept.

DIRECTIONS
Conveniently located within UCLA at the corner of Westwood Boulevard and Le Conte Avenue, the UCLA Stein Eye Institute, 100 Stein Plaza, Los Angeles, 90095 is easily accessible from all points in Southern California. It is approximately 15 miles from the Los Angeles International Airport.

From the San Diego Freeway (405)

COURSE DESCRIPTION

The UCLA Stein Eye Institute Clinical and Research Seminar will provide ophthalmologists and vision scientists with the opportunity to discuss and share experiences, review relevant literature, and synthesize this information into a comprehensive approach to evaluation, management, and treatment of ophthalmic diseases. In addition to formal lectures, there will be ample opportunity for questions and answers and discussion among faculty and attendees.

GOALS & OBJECTIVES

At the conclusion of this seminar, the participants should be able to:

• Discuss the future of ophthalmic disorder diagnosis and treatment, as well as outcomes
• Apply the information provided on new surgical techniques and contemporary treatment of ophthalmic disorders to clinical practice
• Explain indications and standards in the medical and surgical management of ophthalmic diseases
• Describe current research being conducted at the UCLA Stein Eye Institute
