UCLA Stein Eye Institute and Doheny Eye Institute present the
International Retinal Imaging Symposium 2018

Tuesday, February 20, 2018

California NanoSystems Institute at UCLA
570 Westwood Plaza
Los Angeles, CA 90095

www.cme.ucla.edu
The International Retinal Imaging Symposium 2018 will take place on Tuesday, February 20, 2018 at the California NanoSystems Institute at UCLA and will feature a series of lectures that will focus on the latest developments in retinal imaging, including: adaptive optics, fundus autofluorescence, ultra-widefield imaging, spectral domain and swept source optical coherence tomography (OCT), and OCT angiography. This conference will include a full day of lectures by many of the world’s experts in retinal imaging who will speak on recent innovations that have occurred in this rapidly advancing field.

Our world-renowned faculty will aim to familiarize course participants with the newest evolving technologies and will guide and instruct our registrants in the application of these advanced systems and in the interpretation of novel imaging findings. This will help our participants better manage their patients with macular and retinal disease and achieve better patient outcomes in their practices.

We welcome your participation at IntRIS 2018 which promises to provide insight and understanding in retinal imaging and showcase the integral importance of innovative retinal imaging in the evaluation and management of retinal disease.

David Sarraf, M.D.
K. Bailey Freund, M.D.
Srinivas Sadda, M.D.
# IntRIS 2018 Program

## 6.15 – 6.45 AM
**REGISTRATION AND CONTINENTAL BREAKFAST**

### MODERATOR: Srinivas Sadda, M.D.

DIABETES I

MODERATOR: Alexander Brucker, M.D.

12.00 – 12.10  Projection Resolved OCTA in the Ischemic Macula: DRIL, PAMM and AMN
Amani Fawzi, M.D.

12.10 – 12.20  Retinal Layer Thickness, Vascular Density and Visual Acuity in Diabetic Retinopathy
Francesco Bandello, M.D.

12.20 – 12.30  DME Correlates with Retinal Vascular Surface Area on Wide Field FA: DAVE Study
Michael Ip, M.D.

12.30 – 12.40  Diabetic Retinopathy Severity and Quantitative Angiography
Justis Ehlers, M.D.

12.40 – 12.50  Discussion

12.50 – 1.30  LUNCH

DIABETES II

MODERATOR: Lawrence Singerman, M.D.

1.30-1.40  Suspended Scattering Particles in Motion (SSPiM): A Novel OCT Angiographic Finding
Amir Kashani, M.D.

1.40-1.50  Changes in Peripheral Retinal Perfusion in Diabetic Retinopathy Treated by Anti-VEGF
Alain Gaudric, M.D.

1.50-2.00  Ultra-Wide Field OCTA for Evaluation of Diabetic Retinopathy
Kasra Rezaei, M.D.

2.00-2.10  Discussion

MYOPIA AND MISCELLANEOUS

MODERATOR: Colin A. McCannel, M.D.

2.10-2.20  Wide-Field OCT of Myopic Traction Maculopathy and Association with Eye Shape
Kyoko Ohno-Matsui, M.D.

2.20-2.30  Choroidal Morphology in Eyes with Peripapillary Polypoidal Choroidal Vasculopathy
Won Ki Lee, M.D.

2.30-2.40  Mechanisms and Natural Course of Drusenoid PEDs: A Multimodal Imaging Analysis
Lawrence Yannuzzi, M.D.

2.40-2.50  Retinal Venous Malformations: Important New MRI Findings
Francesco Pichi, M.D.

2.50-3.00  Discussion

INFLAMMATION

MODERATOR: Lawrence Yannuzzi, M.D.

3.00-3.10  Advanced Imaging of White Spot Syndromes
Lee Jampol, M.D.

3.10-3.20  Multimodal Manifestations of Checkpoint Inhibitor-Induced Uveitis
Emmett Cunningham, M.D.

3.20-3.30  Automated Imaging Quantification of Inflammation in the Management of Uveitis
Sunil Srivastava, M.D.

3.30-3.40  Discussion

TUMORS

MODERATOR: Jerry Shields, M.D.

3.40-3.50  OCT of Retinoblastoma Shows Tumor Origin in Inner Nuclear Layer
Carol Shields, M.D.

3.50-4.00  Multimodal Imaging of Complications Due to Brachytherapy for Uveal Melanoma
William Mieler, M.D.

4.00-4.10  A New Ultra-Wide Field Angiographic Grading Scheme for Radiation Retinopathy after Brachytherapy Plaque
Tara McCannel, M.D.

4.10-4.20  Discussion

4.30-5.00  RECEPTION AT THE STEIN EYE INSTITUTE

5.00-5.30  TOUR OF THE STEIN EYE INSTITUTE

Doheny/Stein Case Conference (DSCC)

Please also join us for the Doheny/Stein Case Conference (DSCC) to take place in the RPB Auditorium at the Stein Eye Institute on Wednesday, February 21, 2018 from 7:30AM to 11:30AM. Each case presentation will include diagnostic and/or management dilemmas. DSCC registration is a separate fee from the IntRIS 2018 registration. Please go to www.cme.ucla.edu/courses and click on "Doheny/Stein Case Conference" to register.
COURSE OBJECTIVES

At the conclusion of this course, participants will be able to:

• Integrate advanced OCT imaging, including en face OCT and OCT angiography, into clinical practice to better diagnose and manage patients with macular disease
• Integrate advanced retinal imaging including fundus autofluorescence and wide field angiography into clinical practice to better evaluate and manage patients with retinal disease
• Apply novel imaging systems including adaptive optics to better understand the mechanisms of macular disease
• Gain knowledge of the new imaging findings of macular diseases including age-related macular degeneration and diabetic retinopathy as well as other less common retinal disorders
• Gain knowledge of the anatomy of the retinal capillary system and its importance in macular diseases using advanced retinal imaging
• Gain knowledge of the Müller cell and its importance in macular diseases using advanced retinal imaging
• Apply advanced retinal imaging in the evaluation of choroidal tumors

ACCREDITATION

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA, designates this continuing medical education activity for a maximum of 8.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

UCLA CONFLICT OF INTEREST DISCLOSURE

The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, the Accreditation Council for Continuing Medical Education policy mandates that the provider adequately manage all identified potential conflicts of interest prior to the program. We, at UCLA, fully endorse the letter and spirit of this concept.

PARKING AND DIRECTIONS

From the 405 freeway, exit on Wilshire Blvd. East. Proceed on Wilshire Blvd. to Westwood Blvd. and make a left. Proceed north on Westwood Blvd., turn right on Charles E. Young Drive South and continue ½ a block. Turn left into Lot 9. There will be a parking attendant selling permits from 5:45-7:45AM. If you arrive outside of this time frame, please visit the parking kiosk on Westwood Plaza to pay for your parking permit. Participants are responsible to pay for their own parking charges at a rate of $12 per vehicle, cash only.

AIRPORT SHUTTLE SERVICE

Prime Time (800) RED-VANS

TAXICABS

Beverly Hills Cab Co. (310) 273-6611
