Enrollment

Online
Go to www.cme.ucla.edu/courses and click on the course title and then the registration button. You may use your American Express, MasterCard, Visa or Discover card to register online.

By Mail
Use the form attached and mail to:
UCLA Office of Continuing Medical Education
David Geffen School of Medicine at UCLA
Brain and Spinal Disease
10820 Wilshire Blvd., Suite 1060
Los Angeles, CA 90024-6512

By Fax
Send the completed enrollment form with credit card information and authorizing signature to (310) 794-2624.

By Phone
Call (310) 794-2620 to use your MasterCard, Visa, Discover, or American Express card.

Refunds
No refunds will be granted for this conference, due to the low enrollment fee. A full refund will be provided if for any reason the course must be cancelled or rescheduled.

Questions
Please email uclacme@mednet.ucla.edu or call (310) 794-2620.

UCLA CME Offerings
Please visit our website at www.cme.ucla.edu.

Accreditation
The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA, designates this live activity for a maximum of 6 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Application for CME credit has been filed with the American Registry of Radiologic Technology (ASRT). Determination for ASRT Category A credit is pending.

Disclosure Statement
The FDA has issued a concept paper that classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy mandates that the provider adequately manage all identified potential conflicts of interest prior to the program. We at UCLA fully endorse the letter and spirit of these concepts.

Early registration is recommended, as space is limited.
7:30  REGISTRATION AND BREAKFAST
8:00  Welcome and Introductions
      Reza Jahan, MD
8:10  Emergent Management of Ischemic Stroke: What Can Be Done and
      Who Should Be Treated
      May Nour, MD, PhD
8:40  Carotid Artery Atherosclerosis: Stent or Endarterectomy
      Viktor Szeder, MD, PhD
9:10  MORNING 1 PANEL Q&A
      All Morning Session 1 Speakers
9:30  BREAK AND REFRESHMENTS
10:00 Hereditary Hemorrhagic Telangiectasia (HHT)
      Justin McWilliams, MD
10:30 Congenital Lumps and Bumps – Vascular Birthmarks and Lymphatic
      Malformations: Interventions and Indications for Treatment

5:00  ADJOURN
Cutting Edge Interventional Solutions for Brain and Spinal Disease: What the Primary Care Physician Needs to Know

COURSE DESCRIPTION
This course is intended to provide an introduction in management of common diseases of the brain and spine, including ischemic and hemorrhagic stroke, degenerative and metastatic disease of the spine, back pain, and headache. The goal of this course is to review the latest developments in minimally invasive management of these disorders for primary care providers. The course instructors comprise a multidisciplinary team of physicians that will present state-of-the-art interventional and minimally invasive techniques as management options for common health issues in the head and neck, brain and spine. Updated management guidelines will be provided for each subject.

COURSE OBJECTIVES
After attending this live activity, participants should be able to:

• Participate in decision making regarding the use of IV alteplase and endovascular intervention in patients suffering from acute ischemic stroke
• Know the recently expanded indications for endovascular intervention in acute ischemic stroke – whom to treat and in what time window
• Medically manage patients with carotid stenosis and understand the indication for endovascular intervention in the treatment of carotid artery atherosclerotic diseases
• Medically diagnose the most common causes of back pain and headache and understand the role of interventional procedure in the management of these prevalent disease states
• Understand the mechanism of action and objectives of spinal tumor ablation in patients with back pain due to primary or metastatic disease of spine
• Qualify the significance of incidentally discovered cerebral aneurysms and understand the surgical and endovascular options for treatment
• Become familiar with the array of congenital vascular and lymphatic lesions of the head and neck (congenital vascular birthmarks) and understanding therapeutic options for percutaneous and endovascular management of these lesions

David Geffen School of Medicine at UCLA

COURSE DIRECTOR
Reza Jahan, MD
Professor
Division of Interventional Neuroradiology
Department of Radiology and Neurosurgery

COURSE SPEAKERS

Geoffrey P. Colby, MD, PhD
Associate Professor
Division of Interventional Neuroradiology
Department of Radiology and Neurosurgery

Justin McWilliams, MD
Associate Professor
Division of Interventional Radiology
Department of Radiology

May Nour, MD, PhD
Assistant Professor
Division of Interventional Neuroradiology
Department of Radiology and Neurology

Viktor Szeder, MD, PhD
Assistant Clinical Professor
Division of Interventional Neuroradiology
Department of Radiology

Satoshi Tateshima, MD, PhD
Associate Professor
Division of Interventional Neuroradiology
Department of Radiology

J. Pablo Villablanca, MD
Professor
Division of Diagnostic Neuroradiology
Department of Radiology
