The 6th Annual UCLA Diabetes Symposium

Diabetes poses a major healthcare challenge due to the rising prevalence, cost and risk of chronic complications and co-morbidities. Healthcare providers are required to address these concerns and in a changing landscape of therapy and technology where treatments for diabetes continue to expand. The UCLA Annual Diabetes Symposium is a one-day CME program offering providers of varying backgrounds a chance to review optimal state-of-the-art patient care. Experts in the field and its associated complications will review current best practices, including updates in care, guidelines, and technology as well as address comorbidities including renal and cardiovascular disease management.

Course Objectives

At the completion of this course, participants should be able to:

• Manage patients with type 2 diabetes mellitus
• Outline treatment goals and guidelines
• Counsel patients on cardiovascular disease prevention in diabetes
• Utilize the latest technology tools to assist in the management of diabetes
• Outline care and prevention in diabetes kidney disease
• Outline care and prevention of foot care in diabetes
• Understand the impact of diabetes related distress on patient care
• Outline the basic connection between bone disease and diabetes

Target Audience

The UCLA diabetes program has been designed for physicians, nurse practitioners, physician assistants, certified diabetes educators, nurse educators, dietitians, pharmacists, and other healthcare practitioners whose practice includes care of patients with diabetes.

Disclosure
The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy mandates that the provider adequately manage all identified potential conflicts of interest prior to the program. We, at UCLA, fully endorse the letter and spirit of these concepts.
