12th Annual UCLA Liver Diseases Symposium

Saturday, October 20, 2018
The Westin Pasadena
Pasadena, California
Course Description

This symposium will serve as an educational forum for the Southern California physician community for the scientific exchange of information regarding the diagnosis and treatment, medical and surgical, of the most prevalent liver diseases.

Course Objectives

At the conclusion of this program, participants will be able to:

• Discuss new epidemiology of patients with hepatitis C
• Explain the medical options for patients with NASH and the metabolic syndrome
• Describe treatment of ascites and hepatic encephalopathy
• Implement treatment guidelines for hepatitis B during pregnancy
• Order different tests for the non-invasive assessment of liver fibrosis
• Identify tumors that are amenable to surgical treatment

Disclosure Statement
The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy mandates that the provider adequately manages all identified potential conflicts of interest prior to the program. We, at UCLA, fully endorse the letter and spirit of these concepts.
