Accreditation
The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Office of Continuing Medical Education, David Geffen School of Medicine at UCLA designates this live activity for a maximum of 6.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The California State Board of Registered Nursing accepts courses approved by the AMA for category 1 credit as meeting the continuing education requirements for license renewal. Nurses from states other than California should inquire with their local State Board for specific continuing education policies.

Disclosure Statement
The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy mandates that the provider adequately manages all identified potential conflicts of interest prior to the program. We, at UCLA, fully endorse the letter and spirit of these concepts.

Course Description

This symposium will serve as an educational forum for the Southern California physician community for the scientific exchange of information regarding the diagnosis, medical and surgical, and treatment of the most prevalent liver diseases.

Course Objectives

At the conclusion of this program, participants will be able to:

• Identify risk for the development of hepatocellular carcinoma in patients with treated viral hepatitis.

• NASH has become an epidemic in the United States, discuss the management of these patients as well as the metabolic syndrome.

• Explain management of patients with cirrhosis and its complications.

• Implement management of patients with established hepatocellular carcinoma.

• Describe interventional radiology assessment and treatment of hepatocellular carcinoma.

• Discuss surgical resection for hepatocellular carcinoma.
