Meeting the Challenge of Primary Care

December 1-4, 2021
Wailea Beach Resort – Marriott, Maui
Wailea, Hawaii
Course Description

It is often said that the “common things occur most commonly” and nowhere is this not more true than in primary care. This four-day symposium will provide the participant with an update on common problems seen in primary care related to preventive medicine, rheumatology, internal medicine, common liver disorders, and women’s health.

A distinguished UCLA faculty group will discuss a variety of topics including hypertension, diabetes, depression, contraception, coronary heart disease, and common rheumatologic disorders.

Target Audience

This course is targeted towards family physicians, general practitioners, internists, nurse practitioners and physician assistants.

Course Objectives

Following completion of this program, the participant should be able to:

• Diagnose common thyroid disorders, liver disorders and rheumatologic disorders
• Manage common problems seen in primary care including diabetes, abnormal liver tests, heart failure, menopause hormone therapy, osteoporosis, and low back pain
• Implement preventive care measures including cholesterol management, contraception, and hypertension management

Disclosure Statement
The FDA has issued a concept paper which classifies commercial support of scientific and educational programs as promotional unless it can be affirmed that the program is “truly independent” and free of commercial influence. In addition to independence, the FDA requires that non-promotional, commercially supported education be objective, balanced, and scientifically rigorous. The policy further states that all potential conflicts of interest of the CME staff and faculty be fully disclosed to the program’s participants. In addition, Accreditation Council for Continuing Medical Education policy mandates that the provider adequately manages all identified potential conflicts of interest prior to the program. We, at UCLA fully endorse the letter and spirit of these concepts.
